PROFESSIONAL SUMMARY

Certified Full-Stack Web Developer with 3 years of experience designing, developing, and deploying scalable, user-focused web applications. Proficient in Node.js, Express.js, React, Angular, Bootstrap, Tailwind CSS, MongoDB, and MSSQL. Skilled in building responsive UIs, secure backend systems, and integrating online payments with Stripe. Delivered diverse projects including hotel booking systems, food delivery platforms, e-commerce solutions, e-learning portals, and a collaborative farm management system. Passionate about delivering intuitive solutions that solve real-world problems and enhance user experiences.

CORE SKILLS

Frontend: React, Angular, Tailwind CSS, Bootstrap, HTML5, CSS3, JavaScript, TypeScript
Backend: Node.js, Express.js, PHP, Java
Databases: MongoDB, MySQL, MSSQL, SQL Server, postgreSQL
Payments & APIs: Stripe Integration, REST API Development & Integration
Other Skills: JWT Authentication, UI/UX Optimization, Agile Development, Git/GitHub
Data Tools: SPSS, STATA

PROFESSIONAL EXPERIENCE

Freelance Software Developer
Self-employed | Jan 2024 – Present

Delivered custom software solutions for clients across e-commerce, learning management, and business management domains.

- Designed and deployed full-stack applications using React, Angular, Node.js, Express, MongoDB, and SQL databases.

- Collaborated with clients from requirement gathering to deployment, ensuring on-time delivery and high-quality standards.

- Built scalable platforms such as hotel booking systems, e-learning portals, and custom enterprise tools.

Frontend Developer – Farm Management System (Contract Project)
Loosian Ltd | 2023
https://loosian.co.ke/

- Designed and implemented a responsive frontend interface using HTML5, CSS3, JavaScript, and jQuery.

- Collaborated with Emmanuel (Backend Developer – Django) to integrate Django APIs for seamless data flow.

- Developed intuitive dashboards and reporting features to enhance user interaction and farm data analysis.

Full-Stack Developer – Attachment Training
Teach2Give (The Jitu) | Supervised by Daniel Kitheka | 2024 (3 Months)

- Built and maintained full-stack web applications with focus on scalability and responsiveness.

- Implemented secure authentication workflows using JWT.

- Worked under Agile methodology, collaborating with cross-functional teams to deliver production-ready solutions.

PROJECTS

Hotel Booking Management System
React, Tailwind CSS, Node.js, Express.js, Stripe, MongoDB

- Developed a responsive platform for hotel reservations with integrated Stripe payment processing.

- Implemented real-time availability tracking and secure booking management.

Food Delivery Application
React, Node.js, Express.js, Stripe, MongoDB

- Created an online ordering platform with payment integration and dynamic order tracking.

- Built admin dashboards for menu management and analytics.

E-Commerce Application

Angular, Node.js, Express.js, MSSQL

- Designed a complete e-commerce solution with product catalogs, cart management, checkout, and order tracking.

- Integrated secure payment workflows and advanced product filtering.

Learning Management System

Angular, Node.js, Express.js, MSSQL

- Developed a platform for course enrollment, lesson delivery, and student progress tracking.

- Implemented role-based access control for admins, instructors, and learners.

EDUCATION & CERTIFICATIONS

- Certified Web Developer – Teach2Give (The Jitu)

- A2 Certificate in SPSS & STATA – November 2021

- Bachelor's Studies – Chuka University

ADDITIONAL INFORMATION

- Strong leadership, teamwork, and communication abilities.

- Quick to adapt to emerging technologies and market trends.

- Committed to solving complex problems with innovative, user-focused software solutions.
